

We take Saudi brands live on every sales channel — and run them.
From onboarding to cashflow.

MISSION — TODAY

One platform, every channel, for every Saudi brand.

VISION — WHERE WE'RE HEADED

When a Saudi brand sells anywhere — it runs through Nasam.

The demand moved. The brands didn't.

WE LIVED IT

We ran **25+ brands for 10 companies**. Every morning: five dashboards, fifty checks.

A coffee brand winning on 📱 — **invisible** on 🖥️. Same products, different rules. **EDIT: your real anecdote**

Six decisions before the first sale. Fifty checks every day after.

9.5% vs 2–3%

Marketplaces convert 3× better — and bring the demand.

80,000+

merchants still sell only from their own storefront.

1.6%

of sellers take half the GMV.

One layer. Every channel. From onboarding to cashflow.

Fifty daily checks become one screen — **our team acts on it.** Highlighted: unique to Nasam. EDIT: swap for real screenshot

"Brands pay us monthly for the platform — and as they grow, they hand us more of the operation, until we run everything and earn a percentage of every riyal they sell."

Nasam Platform

They run it

SAR 449 / month

Who pays: the brand — SME to enterprise.

How often: monthly, recurring — GMV-linked.

Why it scales: merchants move *down* the funnel; ARPU grows itself.

Next: ads %, financing, data, AI seats.

Rivals we can name — nobody sits in our corner

MANAGED FOR THEM

The biggest rival: **doing nothing** — 80,000 merchants off the marketplaces. We are the market test: 25+ brands, 15K+ orders.

Three founders. One closed loop.

Fahad Alhssan

CTO — BUILDS IT

Architect of the platform.

Ibrahim Alothman

CGO — BRINGS BRANDS IN

Brand acquisition & partnerships.

Tarik Alotay

CEO — MAKES THEM SUCCEED

Brand management & success.

We ran **25+ brands together** before writing a line of this platform.

We let go of the small brands — we win where brands are ready to scale. **EDIT: add awards — this final is one**

Uber didn't own cars.
We don't own brands — we run the rails every Saudi brand rides to every marketplace.

The rails work — **Sonbol: SAR 495 → 822,000 / month** in 60 days.

Why we need each other

What Nasam adds to stc Group

1. **A new SME revenue line.** Nasam through solutions by stc — the Gulf's first telco commerce offer.
2. **Data stc Bank can't see.** Live marketplace sales — the underwriting signal for its 200K+ merchants.
3. **The missing piece.** Rewaa: retail. Zid: webstores. Nasam: marketplaces.

What stc adds to Nasam

1. **Distribution we can't buy.** Co-sell pilot — first **500** stc SME merchants in 2027.
2. **The fintech rails.** stc Bank payouts + data-underwritten working capital.
3. **Capital on a named path.** Grant + services now · tali ventures up to \$500K next.

Zid built Saudi webstores out of InspireU. Sary built B2B commerce. **Nasam builds the marketplace layer.**
