

We take brands live on every sales channel — and run them. From onboarding to cashflow.

MISSION — TODAY

One platform, every channel, for every brand.

VISION — WHERE WE'RE HEADED

When a brand sells anywhere — it runs through Nasam.

The demand moved. The brands didn't.

THE MARKET'S REALITY

Shoppers moved to the marketplaces — product search starts there now, not on Google.

But for a brand, every channel is a world of its own: **six decisions before the first sale**, and dozens of graded signals every day after it.

So most brands stay on a single storefront — and leave the fastest-growing demand uncaptured.

9.5% vs 2–3%

Marketplaces convert 3× better than a brand's own store — and they bring the demand.

50 / day

checks a multi-channel brand faces daily — five dashboards, different rules on each.

1.6%

of sellers take half the marketplace GMV. Without an operating layer, the game belongs to the few.

A software platform — one operating layer for every channel.

Every channel, one dashboard. Orders, inventory, pricing, catalog and profit — synced automatically.

Brand Health. Ten dimensions, graded daily, per brand.

AI access. AI agents operate on live commerce data.

Want it run for you? Our operations team works on top of the same platform.

SaaS first — and it grows with every brand.

Platform

SAR 449 /mo

or SAR 3,999 / year

Self-serve software — the brand runs it.

Platform + Onboarding

SAR 3,999 /yr

+ one-time onboarding **SAR —**

We take the brand live on every channel — then they run it.

Full Management

SAR — /mo

+ **—%** of operated GMV · platform included

We are their commerce team, end to end.

Recurring and GMV-linked — **brands move down as they grow.**

Revenue today. 30× GMV in six months.

Monthly GMV through the platform — trailing 12 months (SAR)

Confirmed sales, excl. shipping · production data, 19 Aug 2026 · August = first 19 days only

SAR 250K+

invoiced revenue — recurring

SAR 1.96M

GMV, past 365 days · last 90 did 4×

25+ brands

served across 10 accounts

495 → 822K

one brand's monthly GMV — in 60 days

2026 EXIT

SAR 1.2–1.5M rev run-rate

2 more large accounts · self-serve launch

2027

SAR 4–6M revenue

50–60 brands · inspireU ecosystem pilots

2028

SAR 10–14M revenue

150+ brands · ads % + financing · first GCC market

The market is still uncaptured

  **Selling from their own storefront** **78,000+**

  **Selling on the marketplaces** **< 20,000**

Every dot = 1,000 merchants • **2.8×** the demand per Amazon.sa seller vs the global average — the door is wide open.

\$24.6B

Saudi e-commerce • +12% a year — local first, GCC next

RIVALS WE CAN NAME

Marketplace agencies — people, one channel, no software

Pattern — buys inventory, serves global brands

ChannelEngine — software only, no operations

Doing nothing — where 78,000 merchants sit today

No one else is software + operations, every channel.

Three founders. One closed loop.

Fahad Alhssan

CTO — BUILDS IT

Architect of the platform.

Ibrahim Alothman

CGO — BRINGS BRANDS IN

Brand acquisition & partnerships.

Tarik Alotay

CEO — MAKES THEM SUCCEED

Brand management & success.

We ran **25+ brands together** before writing a line of this platform.

We let go of the small brands — we win where brands are ready to scale. **EDIT: add awards — this final is one**

Uber didn't own cars.
We don't own brands — we run the rails every brand rides to every marketplace.

The rails work — **one brand: SAR 495 → 822,000 / month** in 60 days.

Why we need each other

What Nasam adds to stc

1. **stc's own commerce, everywhere.** The Store from stc sells devices and home tech — and just launched its own accessories brand, **Vaster from stc**. Nasam takes that catalog to every marketplace, powering the Digital Push.
2. **Shoppers stc isn't reaching.** Most consumers don't know stc sells beyond phones and SIMs — the marketplaces are where they're already searching.
3. **The missing layer.** Rewaa: retail. Zid: webstores. Nasam: the marketplaces.

What inspireU by stc adds to Nasam

1. **A pilot inside the group.** Let us prove it — Vaster from stc, one brand, live on every marketplace.
2. **The ecosystem.** Coaches, the stc network, and the credibility of inspireU behind us when we walk into brands.
3. **The rails for our roadmap.** An stc Bank partnership — completing onboarding-to-cashflow for every brand we run.

Zid built webstores out of inspireU. Sary built B2B commerce. **Nasam builds the marketplace layer.**

This year — and five years out

TODAY · AUG 2026

SAR 2M GMV

15K+ orders

25+ brands served · 5 live channels ·
12K+ products

2026 EXIT
