

The operating layer for Saudi commerce — we take brands live on every sales channel and run them, from onboarding to cashflow.

MISSION — TODAY

One platform, every channel, for every Saudi brand.

VISION — WHERE WE'RE HEADED

When a Saudi brand sells anywhere — it runs through Nasam.

Amazon · noon · Trendyol · Salla · Jahez · HungerStation · Keeta · Ninja +

The demand moved. The brands didn't.

WE LIVED IT

We ran **25+ brands for 10 companies** on these marketplaces. Every morning: five dashboards, fifty checks.

A coffee brand winning on Salla — **invisible on Amazon**. Same products, same country, different rules. **EDIT: your real anecdote**

Six decisions stand before the first sale — channel, fulfilment, programme, pricing, catalog, inbound — and fifty daily checks stand after it.

So most brands stay out — and pay for the demand the marketplaces would have paid for. The pain is real, current, and **expensive every single day**.

9.5% vs 2–3%

Marketplaces convert 3× better than a brand's own store — and the channel pays for the demand.

80,000+

Saudi merchants sell only from their own storefront. Only a small fraction ever made the jump to the marketplaces.

1.6%

of sellers capture half of all marketplace GMV. Without an operating layer, the game belongs to the few.

One layer. Every channel. From onboarding to cashflow.

Software runs the signals — **our team acts on them.** Fifty daily checks become one screen. EDIT: swap panel for real product screenshot

The two highlighted capabilities exist nowhere else in the Saudi market.

"Brands pay us monthly for the platform — and as they grow, they hand us more of the operation, until we run everything and earn a percentage of every riyal they sell."

Nasam Platform

Self-serve software — they run it

SAR 449 / month

Who pays: the brand — SME to enterprise.**How often:** monthly, recurring — and GMV-linked, so revenue compounds with our brands' growth.**Why it scales:** merchants move *down* the funnel as they grow — ARPU rises with zero new acquisition cost.**Unlockable next:** ads %, seller financing, data products, AI seats.**Platform + Onboarding**

We take them live, then they run it

One-time fee + subscription

Full Account Management

We are their commerce team

Monthly fee + % of GMV

Merchants enter at the top and move down as they grow — the software underneath stays the same.

Revenue today — and 30× GMV growth in six months

Monthly GMV through the platform — trailing 12 months (SAR)

Confirmed sales, excl. shipping · production data, 19 Aug 2026 · August = first 19 days only

SAR 250K+

invoiced revenue to date — yes, we earn revenue today, and it recurs

SAR 1.96M

GMV, past 365 days — the last 90 days did 4× the prior nine months

15,594

confirmed orders lifetime · live GMV on 5 channels

495 → 822K

Sonbol (سنبل): monthly GMV, June → August. Zero to 800K+/month in 60 days.

2026 EXIT

SAR 1.2–1.5M rev run-rate

Assumes: 2 more Sonbol-class accounts + first self-serve cohort live

2027

SAR 4–6M revenue

Assumes: 50–60 brands, self-serve tier open, stc SME co-sell pilot

2028

SAR 10–14M revenue

Assumes: 150+ brands, ads % + financing referrals live, first GCC market

A \$24.6B market — and no one else runs every channel

TAM — SAUDI E-COMMERCE

\$24.6B • +12% a year

~10% of retail today, heading past 25% (Renub, SAMA mada)

SAM — COMMERCE ENABLEMENT

SAR 0.5B → 5B by 2030

10× (RedSeer) • 40,953 registered e-commerce businesses (Monsha'at) + 80K+ storefronts

SOM — OUR 5-YEAR TARGET

SAR ~45M • ~1% of SAM

1,500 brands × blended SAR 30K/yr — and we grew 30× this year

Rivals we can name — nobody sits in our corner

MANAGED FOR THEM

And the biggest rival of all: **doing nothing** — 80,000 merchants staying off the marketplaces. We are the market test: 25+ brands, 15K+ orders, every feature built because a brand asked for it.

Three founders. One closed loop.

Fahad Alhssan

CTO — BUILDS IT

Architect of the Marketplace Management Platform
— product design & development.

Ibrahim Alothman

CGO — BRINGS BRANDS IN

Brand acquisition, partnerships and scalable
growth programs.

Tarik Alotay

CEO — MAKES THEM SUCCEED

Strategy, brand management and long-term
growth across platforms.

We ran **25+ brands together** before writing a line of this platform.

And we let go of the smallest ones — learning where our machine wins: brands ready to scale. **EDIT: add awards / recognition — this final is one**

Uber didn't own cars.
We don't own brands — we run the rails every Saudi brand rides to every marketplace.

The rails work — **Sonbol: SAR 495 → 822,000 / month** in 60 days.

Why we need each other

What Nasam adds to stc Group

1. **A new SME revenue line.** Bundled through solutions by stc, stc becomes the first GCC telco with a marketplace-commerce offer — the DARE "Expand" pillar in action.
2. **Data stc Bank can't see.** Verified cross-channel sales data that underwrites merchant lending for its 200K+ registered merchants.
3. **The missing portfolio piece.** Rewaa runs offline retail, Zid runs webstores — Nasam runs the marketplaces. Together: the full Saudi retail stack.

What stc adds to Nasam

1. **Distribution we can't buy.** A co-sell pilot through solutions by stc — the first **500** SME merchants in 2027.
2. **The fintech rails.** stc Bank payouts + the Kingdom's first marketplace-data-underwritten working capital, piloted on our live brands.
3. **Capital + credibility on a named path.** The equity-free grant and services now — tali ventures follow-on (up to \$500K) as we scale.

Zid built Saudi webstores out of InspireU. Sary built B2B commerce. **Nasam builds the marketplace layer.**

This year — and five years out

TODAY · AUG 2026

SAR 2M GMV

15K+ orders

8 active brands, 5 channels carrying live GMV, 12K+ products under management.

2026 EXIT

20+ brands

SAR 2M+ /mo pace

Two more Sonbol-class accounts; first self-serve platform cohort.

2027 — WITH STC

stc SME co-sell

+ stc Bank pilot

Nasam bundled to stc SME merchants; marketplace-data merchant financing goes live.

2031

The commerce infrastructure of the Gulf

1,500+ brands · GCC expansion · financing, data and AI layers on top.

Powering every seller's growth — with stc.
